

RONIT RAJIBPATTNAIK

Ph.No: +91 8144124153 E-Mail: ronit.r.pattnaik3000@gmail.com [LinkedIn](#) [GitHub](#)

EDUCATION

Institute of Technical Education and Research, SOA, Bhubaneswar

2023 - 2027

Bachelor of Technology

- CGPA: 9.46 (till 6th semester)

ODM Public School , Bhubaneswar

- Class XII: 87.8%
- Class X: 87.5%

2022 - 2023

2021

SKILLS

- Design & Analysis:** SolidWorks, FEA & CFD
- Programming:** Python Scripting for automation in CAD
- Data Analysis:** MySQL, Python, Power BI dashboards.
- Reinforcement Learning:** MuJoCo, SAC for simulation

INTERNSHIP

Product & Growth Intern| Fastpeer AI Corps | South Plainfield, New Jersey, USA (Remote)

March 2026 - June 2026

- Established the operational backbone for 5 AI products, centralizing documentation and reporting workflows across a 10+ member engineering team and replacing fragmented communication channels.
- Architected the company's early-stage growth operations, generating 15K+ organic impressions, structuring lead-acquisition pipelines across 4 U.S. states (NY, NJ, PA, CT), and maintaining a CRM of 300+ qualified prospects.
- Led product-quality operations across 5 AI products, tracking of 5–10 weekly bug reports.
- Synthesized stakeholder and user feedback from 3 product demonstrations, influencing 25+ feature enhancements and product decisions across web and mobile AI platforms.

Robotics and Manufacturing Intern| Fx UAV | Bhubaneswar, Odisha, India (On-site)

Dec 2024 - Feb 2025

- Worked with 3 flight-controller platforms (KK2.1.5, MiniPix, and Pixhawk) to assemble and configure UAV systems.
- Utilized ArduPilot and Mission Planner for flight-controller configuration, sensor calibration, parameter tuning, flight-mode setup, and pre-flight verification.
- Integrated receiver–transmitter communication, performed ESC calibration, and validated channel mapping.
- Resolved a firmware failure through documentation-guided reflashing and system recovery using Mission Planner.

PATENTS & PAPERS

Indian Patent Application (Published): Modular Robotic Hand, Application No. 202631034393, published in the Indian Patent Journal (Vol. 13/2026, 27 Mar 2026).

Indian Design Application (Granted): Modular Robotic Hand, Design Application No. 499872-001, accepted by the Indian Designs Registry.

Research paper: 3rd author, paper on "Effect of Inlet Temperature of Jet Burner Using Syn-Gas", submitted for publication (2026)

PROJECTS

Low-Cost Prosthetic Hand Model | [Doc Link](#), [Visualize](#)

June 2 - Dec 2 2025

- Led end-to-end development of a low-cost prosthetic hand, identifying affordability and accessibility as key problem areas and translating them into a functional product solution through 5 iterations.
- FEA-validated PLA prosthetic structure using an ~82,000-element mesh under 68 N grip-force loading, achieving a factor of safety of 3.11 with a maximum deformation of 0.532 mm.

Reinforcement Learning for Dexterous Hand Manipulation | [Project Link](#)

July 17 - Aug 25, 2026

- Developed a MuJoCo-based reinforcement learning pipeline using behavioral cloning and SAC for continuous-control hand manipulation with multi-stage grasp/lift reward function.
- Processed and refined 9 behavioral demonstrations, identifying data-quality and episode-termination issues through iterative training and debugging.

ACHIEVEMENTS

Public Speaking: 2x State level speaker at Odisha State Legislature Assembly, top 5 among 200+ participants in Viksit Bharat Youth Parliament 2025, 2026.

Innovation Challenges: 3x Ideathon (XIM ICAIET 2025, Startup Odisha Hack the Future 2025, Synergy INNOVISION 2026)

Diplomacy & Leadership: 2x Honorary Mention (AIIMS ABMUN 2025, KIIT 2025)

Clubs: Founding member in GFG, Core Operations team member, Coordinated 4+ plus events.
